2. Standards of Performance for New Stationary Sources, National Emission Standards for Hazardous Air Pollutants for Source Categories (Conditions D11, D12, D13, D14).

This reopening is conducted pursuant to Tennessee Air Pollution Control Regulations 1200-03-09-.02(11)(f)5(iv). Only the portions of the Title V permit for which cause to reopen exists are open to comment during the notice period.

EPA has agreed to treat these draft Part 70 permits as proposed Part 70 permits and to perform its 45-day review provided by the law concurrently with the public notice period. If any substantive comments are received, EPA's 45-day review period will cease to be performed concurrently with the public notice period. EPA's 45-day review period will start once the public notice period has been completed and EPA receives notification from the Division of Air Pollution Control that comments have been received and resolved. Whether EPA's 45-day review period is performed concurrently with the public comment period or after the public comment period has ended, the deadline for citizen's petitions to the EPA Administrator will be determined as if EPA's 45-day review period is performed after the public comment period has ended (*i.e.*, sequentially). The status regarding EPA's 45-day review of these permits and the deadline for submitting a citizen's petition can be found at the following website address:
